

Message from the Board Chair & Director

Dear Neighbors,

In 2019, our Foundation delivered on the promise made to improve the quality of care at EvergreenHealth Monroe. Along with our philanthropic partners, EvergreenHealth Monroe Foundation made significant investments in the infrastructure and equipment our dedicated team of caregivers use every day.

At the beginning of 2019, EvergreenHealth Monroe opened a new Cancer Care Center in collaboration with physicians at Seattle Cancer Care Alliance. Having a Cancer Center right here in Monroe means patients no longer need to drive long distances to receive high-quality and state-of-the-art cancer treatments. This is a massive win for our community!

One of the projects we are most proud of is the redesign and renovation of the Healing Garden located at the center of the hospital, outside of our patient rooms. This project was completed with funds raised by the Foundation and a group of dedicated master gardeners. They volunteered their time to make the garden a calm and tranquil environment to be enjoyed by staff and patients.

Our signature Blue Jeans and Boots Gala was a roaring success and raised \$193,000 to invest in critical equipment nurses use every day to care for patients. Some of the equipment included lifesaving AED and LifePak devices used when a patient is in cardiac arrest and new IV pumps with updated medication libraries.

We thank the community and the EvergreenHealth Monroe Board of Trustees who work tirelessly to advance the health care on which our community depends.

Sincerely,

Dianne Forth, President
EvergreenHealth Monroe
Foundation Board of Trustees
